EDUCATION

Instituto Tecnológico de Sonora

Software Engineering Bachelor Student

Platzi

- Certificated in Python
- Certificated in Javascript
- Taking web development courses since 2019
- MERN stack

ENGLISH

C1 Degree by the University of Cambridge

Personal Info

I am a software engineer capable of finding solutions and implementing technologies to solve any problem, looking forward to learn and work as a team. Adaptable and a fast learner.

WORK EXPERIENCE

Full Stack Developer - Grupo MR - August /September 2021

Python | FastAPI | Linux | MongoDB | Javascript | Html & Css | Use Case Diagramming

Mobile Developer - Instituto Tecnológico de Sonora - Social Service - April / June 2022

C# | Xamarin Forms | MySQL | Git | Github | Scrum

Backend Developer - Geekbears - April / September 2022

Typescript | NestJS | Mocha | Jest | MongoDB | Git | GitLab | Docker | Postman

Front End Developer - SMB Frames - Contributor - September 2022

Javascript | ReactJS | HTML & CSS | Web3JS | Tailwind | Git & Github | Solana

Twitter Bot Developer - Madville - Contributor - October 2022

Javascript | ExpressJS | Mocha | Twitter API | Git & Github | Web3JS | Solana

Front End Developer - BVDCATS - Contributor - November 2022

Javascript | ReactJS | Web3JS | Solana | Git & Github

Back End Developer

- Designed and Implemented MVC Architecture, developing several Rest API with fastAPI using uvicorn as ASGI, connecting with MySql using Pysql.
- Built several expressJS servers using nodeJS, managed Auth using JWT
- Developed APIs with NestJS, using the best practices to have a clear implementation with the Front End

Professional Skills

Programming Languages

JavaScript, HTML/CSS, Python, Java, C#, SQL, Typescript

Tools:

Node.js, Express.js, Spring Boot, FastAPI, Firebase, MongoDB, MySQL, ReactJS, Xamarin Forms, Tailwind, NestJS, NextJS, Anchor, Postman, web3JS, Mocha, Jest

Front End Developer

- Inclined toward mobile first development
- Implementing data gathering methodologies for further data analysis, and applying it to UI and UX development
- Design process prototype first, where I develop several prototypes, improving it each iteration from data gathering
- Strong React
- Strong JavaScript Vanilla + NextJS
- Fluent in HTML, CSS, Tailwind

Other Projects

- Developed the first version of my portfolio (<http://biccsdev.me> / deprecated), using HTML, CSS, and JS. Hosting it in the cloud within an apache 2 server, configured in an ubuntu machine.
- Developed the second version of my portfolio (<https://biccs.dev>), using React, Tailwind and firebase for hosting.
- Working on the third iteration of my website (<https://biccs.dev>, not up yet), built with NextJS mixing SSR and CSR depending on the use case
- Developed a mobile app using Xamarin Forms implementing MVVM architecture (Private Repository)
- Chat app made with ExpressJS, NodeJS, and MongoDB for the backend, and HTML, CSS and JS for the frontend. Implemented WebSockets. (<https://github.com/biccs/chatApp>)
- Twitter Bot built with expressJS and run in a linux VM using daemons (<https://twitter.com/villinzbot>)
- SMB Frames (<https://smbframes.vercel.app/>) token gated system built with NextJS for the front end and NestJS with MongoDB for the back end
